

- Three games were unanimous picks (everyone picked Stanford to beat Pittsburgh, Michigan to beat Florida, and Clemson to beat Notre Dame).
- There were 11 games where all but 1 person picked the same team.
 - o Greta was the only one to pick North Texas to beat Utah State, Arizona State to beat Fresno State, Middle Tennessee to beat Appalachian State, and Iowa to beat Mississippi State.
 - o Ryan was the only one to pick Oklahoma to beat Alabama and the only one to pick Clemson to win the National Championship.
 - o Amber was the only one to pick Virginia Tech to beat Cincinnati and Washington to beat Ohio State.
 - o Grandpa was the only one to pick San Diego State to beat Ohio
 - o Michelle was the only one to pick California to beat TCU
 - o Becca was the only one to pick Miami to beat Wisconsin
- There was barely any variation in Semi Final and National Championship picks. 7 of 8 people picked Alabama to beat Clemson in the Championship. Ryan was the only different one, by picking Clemson to beat Oklahoma.
- The three most similar duos were Damon and Grandpa (33 out of 41 picks in common), Jason and Damon (30 picks in common), and Becca and Jason (29 picks in common).
- The three least similar duos were Ryan and Greta (17 picks in common), Grandpa and Greta (19 picks in common), and Greta and Michelle (19 picks in common).
- The overall “most unique” picker was Greta, who on average has 20 similar picks with the remaining seven people.
- The overall “least unique” picker was Damon, who on average has 26.9 similar picks with the remaining seven people.
- If all of the favorites (according to ESPN’s FPI predictions) win, then the winner would be Grandpa (32 correct picks), with Damon (30 correct picks) as the runner up.
- If all of the favorites lose, then the winner would be Greta (21 correct picks) with Ryan (16 correct picks) as the runner up.
- Based on a simulation of 640,000 possible outcomes (out of the more than 2 trillion possibilities, or 2^{41}), the percent chance each person has to win is:
 - o Greta: 24.3%
 - o Damon: 16.4%
 - o Ryan: 13.4%
 - o Becca: 13.3%
 - o Michelle: 10.4%
 - o Amber: 8.0 %
 - o Grandpa: 7.8%
 - o Jason: 6.3%
